## Enphase Energy Wins Greentech Media's Grid Edge 20 Award in a Time of Electric Power Industry Transformation

PETALUMA, Calif.--(BUSINESS WIRE)-- [Enphase Energy, Inc.](#) (NASDAQ: ENPH) was named to Greentech Media's [Grid Edge 20](#) this week, as one of the 20 most innovative companies leading the charge into grid edge modernization. Awardees were selected that embody the tenets of grid edge industry transformation that's underway in the electric power industry as a result of rapidly growing distributed generation.

"We are honored to receive this prestigious award for our innovative products, sound market strategies and forward-looking vision for the electric power market," said Paul Nahi, CEO of Enphase. "Enphase and the other award winners are being recognized for the potential to shape this market, and the transformation is already underway with over 5 million of our microinverter systems deployed worldwide."

[Greentech Media](#) and [GTM Research](#), with extensive industry reach and solid analytical expertise, leveraged their interaction with market stakeholders across the industry supply chain and ongoing engagement with industry thought-leaders to help identify the Grid Edge 20.

The Grid Edge 20 is part of the Grid Edge initiative that Greentech Media launched in Fall 2013. The initiative includes original research from GTM Research, online news and media coverage, [a webinar series](#) on specific grid edge topics and the [Grid Edge Executive Council](#).

Greentech Media is also introducing a new event: [Grid Edge Live](#), being held in San Diego, CA, June 24-25. This conference will bring together the emerging ecosystem of power industry thought leaders, grid modernization technology vendors, distributed generation and storage professionals, policy experts and commercial energy managers. Enphase Energy executives will be discussing the role of smart PV inverters at the event on June 24.

Greentech Media's Grid Edge initiative will shape the future of global power infrastructure in the face of rapidly growing distributed generation and energy consumer evolution. Find out more about the Grid Edge Initiative here:

### About Enphase Energy, Inc.

Enphase Energy delivers microinverter technology for the solar industry that increases energy production, simplifies design and installation, improves system uptime and reliability, reduces fire safety risk and provides a platform for intelligent energy management. Our semiconductor-based microinverter system converts energy at the individual solar module level and brings a systems-based, high technology approach to solar energy generation. Connect with Enphase on [Facebook](#) and follow us on [Twitter](#). [www.enphase.com](http://www.enphase.com)
