## Enphase Energy Named Top PV Inverter Brand in France and Benelux by EuPD Research

*Company ranks among the leading solar brands based on the results of an installer survey on brand awareness, customer choice and distribution*

LYON, France--(BUSINESS WIRE)-- Enphase Energy (NASDAQ: ENPH), a leading global energy technology company, today announced that it has been awarded the premium EuPD Research [Top Brand PV seal](#) of approval for its commendable brand management and brand awareness among installers and solar professionals in France and Benelux.

Each year [EuPD Research](#) conducts Europe-wide surveys and prepares an independent evaluation on the perception of solar brands. For this year's survey, Enphase received a seal based on high scores for overall customer experience and satisfaction, which are the result of the company's quality philosophy that permeates all aspects of the business, from products to services.

"The award of this respected industry seal offers another confirmation of Enphase's commitment to product innovation, quality and technology leadership," said Cathia Younsi, sales director, Western and South Europe, Enphase Energy. "After three years of a strong presence in France, we want to continue to support the growth of our customers with the best level of services in the industry."

The Enphase intelligent solar energy system combines hardware and software solutions to give solar professionals a competitive edge in their business. The system facilitates right-sized solar arrays and offers maximum design flexibility, and provides an unmatched customer satisfaction experience as well as superior lifetime energy performance.

"Enphase not only stands for high-quality products, but also for our tireless proximity to the market and unrivalled customer-oriented service," added Frank Berets, Enphase Energy country manager for Benelux. "The seal shows how well our brand management strategy is being received in Benelux."

With its extensive industry reach and analytical expertise, EuPD Research leverages ongoing interactions and discussions with photovoltaic (PV) installers as well as end-customers and other thought leaders, resulting in the unique decision-making process that determines the recipients of the [Top Brand PV Seal](#) awards.

"The PV inverter landscape is highly competitive, yet Enphase moved up in rank in multiple countries and retained its leadership position in France and Benelux," said Markus A.W. Hoenher, managing director, EuPD Research. "In such a competitive market, seals of approval do not just offer benefits for manufacturers--installers can differentiate themselves once they have proven that they are offering high-quality brands."

### About EuPD Research

EuPD Research, 360|Consult and 360|Concept come together under the umbrella of the Hoehner Research & Consulting Group (HRCG). The Group pursues a strategy that values providing customers with integrated solutions based on first-rate market intelligence, consulting know-how, communications excellence and implement go-to-market strategies.
