## Revolve Solar Selects Enphase Energy as Preferred Inverter Supplier

*CED Greentech to supply Enphase Microinverter Systems to Revolve Solar via distribution agreement*

PETALUMA, Calif.--(BUSINESS WIRE)-- [Enphase Energy, Inc.](#) (NASDAQ:ENPH) announced today that the company has been selected as the preferred inverter supplier for Revolve Solar via its distribution arrangement with wholesale distributor CED Greentech. Revolve Solar is a rapidly growing full-service residential and commercial solar company, with operations in Redding, Chico and Vacaville, California, as well as its home office in Austin, Texas.

"We've been very successful with our consultative sales approach that emphasizes customer education, high-quality products and attractive financing options," said Rick Davis, EVP of business development at Revolve Solar. "We spend time with our customers to help them understand that the Enphase system will significantly enhance the long-term return on their solar investment."

"We've been selling Enphase products for many years and consider them a great channel partner who shares our commitment to integrity and reliability," said Greg Bennett, manager of CED Greentech's San Leandro, Calif., office. "As one of our fastest-growing customers, Revolve Solar appreciates CED's proven ability to deliver system components on a timely basis so they can focus on sales and customer service rather than managing inventory."

"Revolve is well known for its seasoned and highly disciplined sales organization focused on quality and customer service," said Jeff Loebbaka, senior vice president of global sales, marketing and support at Enphase Energy. "Enphase systems offer the best solar solution for Revolve customers based on our superior performance, highest energy production, and ease of design and installation. As the preferred inverter provider for Revolve Solar, we are continuing our ongoing efforts to strengthen and grow our channel partnerships."

### About Revolve Solar

Founded in Austin, Texas, in 2012, Revolve Solar makes going solar easy and affordable. We help interested, qualifying candidates take the next step in energy evolution by utilizing local and federal incentives to install solar PV on the rooftops of their homes and small businesses. More PV in our communities means lower utility bills, stronger electrical grids and a cleaner environment. Since what goes around comes around, we trust that clean energy is just good, common sense. To us, a secure energy future means placing more energy choices in the hands of *people*—homeowners and business owners who see the value in reducing their dependency on polluting energy sources and enjoying the multitude of benefits that go along with utilizing true renewable energy sources. We hire installers locally to build the local solar community from our locations in California and Texas. [RevolveSolar.com](#)

### About CED Greentech

CED Greentech is a division of Consolidated Electrical Distributors Inc., one of the largest electrical product wholesale distributors in the country. As a full-service wholesale distributor of solar, electrical and renewable energy products with 18 locations in the U.S., we are committed to providing superior service and support. We have an extensive onsite inventory featuring products from the solar and electrical industry's top manufacturers. Whether your project is residential or commercial, we're confident we'll have what you need when you need it. [www.cedgreentechus.com](#)

### About Enphase Energy, Inc.

Enphase Energy delivers microinverter technology for the solar industry that increases energy production, simplifies design and installation, improves system uptime and reliability, reduces fire safety risk and provides a platform for intelligent energy management. Our semiconductor-based microinverter system converts energy at the individual solar module level and brings a systems-based, high technology approach to solar energy generation.
