## Enphase Energy Receives Prestigious Smart Solar Award UK 2016

*Enphase Energy recognized in the Smart Solar Technology Innovation category*

**Eindhoven, The Netherlands – 30 November 2016** – [Enphase Energy, Inc.](#) (NASDAQ:ENPH), a global energy technology company, announced today that it has received the Smart Solar Award UK 2016 in the Smart Solar Technology Innovation category for its [Enphase Home Energy Solution](#) product.

The Enphase Home Energy Solution was selected due to its ability to combine solar, storage and software that monitors production and consumption, maximising energy savings via a truly integrated system.

“We are very proud to have received this award as it is an acknowledgement by professionals and industry experts of our ability to deliver a truly integrated, efficient and intelligent Home Energy Solution product,” said Peter van Berkel, general manager, EMEA, Enphase Energy. “This solution represents one of the most compelling and technologically advanced residential energy solutions in the world today, offering maximum energy savings for homeowners.”

The [Envoy-S gateway](#) is the foundation of the Enphase Home Energy Solution. The Envoy-S Metered solution shows solar production and energy consumption data that helps consumers manage their energy usage more efficiently and intelligently, while enabling them to size and add an [Enphase AC Battery](#) storage system, currently available in the UK market.

### The Solar UK Awards

The Solar UK Awards were established in 2011. The jury exists of selected professionals from the Solar UK organisation who review a group of unique products and projects that have been implemented during the year and stand out in performance and innovation. The jury decides the winners based on products they believe should receive wider recognition as an important part of solar energy development in the United Kingdom.

### About Enphase Energy, Inc.

Enphase Energy, a global energy technology company, delivers smart, easy-to-use solutions that connect solar generation, storage and management on one intelligent platform. The company revolutionized solar with its micro inverter technology and produces the world's only truly integrated solar plus storage solution. Enphase has shipped approximately 13 million micro inverters, and more than 540,000 Enphase residential and commercial systems have been deployed in more than 100 countries.
